

SAVING GRACE

Peter Eldridge

Grace you dance with stars high above you
Scores of angels spin light around you
Your world is such an unfettered place
Hopeful as a new day
How can I help to keep any storms away?

And she sings
La la la
My saving grace

Grace you paint the clouds with the tall trees
Wish I could see the same world that you see
Now people will try and stand in your way
But can you rise above it
How can you remain all that you are today?

And she sings
La la la . . . (sweet little precious one)
My saving grace
(repeat chorus)

Does the world have to be so cold a place
To try to put fear on such a face?
Oh please forgive we worldly fools
Be all you can my saving grace

Grace you dance with stars high above you
Scores of angels spin light around you
Grace you paint the clouds with the tall trees
Wish I could see the same world that you see
Wish I could see the same world
Wish I could see the same world that you see
