

# Warm December

Music - Eldridge

Lyrics - Worth/Eldridge

Rising from a dream  
All is different now it seems  
There's no sign of snow or frost  
Winter clothes are shed and tossed  
People out my window wild and free  
Inviting me . . .

## CHORUS

Night's as bright as day  
It's a warm December  
Everything this day's turned upside down  
Nothing feels the same  
Not as I remember  
Giving in to all that's uncertain  
Pick a star  
Jump-fall through a rainbow curtain  
Softly floating down into this warm December

Have we met before?  
Your eyes, your touch like open doors  
Though I can't recall your face  
Can't define a time or place  
Every moment pulls me closer to  
Rediscovering you . . .

## CHORUS REPEATS

Are we still dreaming?  
Or waking up to what's real?  
Such a star-filled morning  
With no secrets to reveal  
Strangers all are dancing  
Circles of color fill the streets

Is this real life or how life should really be?  
How life should really be

### **CHORUS REPEATS**

Softly floating down into this warm December  
Keep going, no knowing where we may arrive  
Keep going, no knowing where we may arrive  
Keep going, no knowing where we may arrive
